

B Series — Quick Pitch

B750F

The B Series is a straightforward way to upgrade from standard TV speakers to a full, room-filling sound. They are built to make your everyday shows and movies feel more immersive without complicated setup or a high price tag.

You can get models with dedicated center speakers making voices easier to hear, even when there is a lot of background noise in a scene. Depending on your space, you can go with options that have a separate subwoofer for deep bass, or choose an all-in-one model with bass built in to save space.

These are a great option for any brand of TV, but select options are designed to work alongside newer Samsung TVs¹. This allows the speakers to play together instead of cutting out the TV's sound.

An essential upgrade to complete your setup at a great price.

Top 3 reasons

Value-Driven Performance

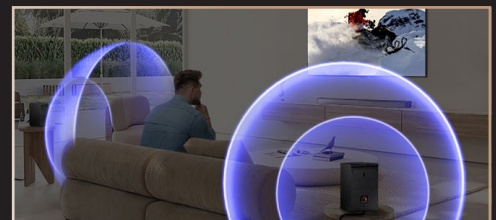

Upgrade your standard TV sound with a Samsung soundbar **at a great price.**

A soundbar provides a much fuller and more room-filling experience for everyday content when compared to TV speakers.

Vocal Clarity

Many models include a **dedicated center speaker** that focuses specifically on dialogue so you can **hear voices clearly**, even during loud action scenes with a lot of background noise.

Versatile Setup

You have **different options for different spaces.**

From Soundbars with a separate subwoofer for more bass, to a bar with the bass built right in reducing clutter on the floor.
