

## OLED — Quick Pitch

Samsung OLED TVs offer a great viewing experience with Real Black, Real Color and a bright picture; even in bright rooms. The Glare Free technology helps reduce reflections, so you can see everything clearly.

If you watch sports, play games, or enjoy movies, the high refresh rate keeps everything smooth and sharp during fast movements.

OLED TVs are designed to look great in any room with a sleek, modern style. When the movie or gaming session ends, you can use the Art Store on the S95H to display art or other images, making it blend in with your home décor.

A stunning picture quality with smooth performance and a stylish design that fits well in your home.

## Top 3 reasons

## Stunning Picture Quality

Experience **Real Black** and **Real Color** across three OLED TV models with enhanced HDR brightness levels to suit any viewing need.

Additionally, the S90H and S95H feature **Glare Free** technology, ensuring exceptional contrast whether in dark or bright rooms.

## Smooth Performance

Fast refresh rates help quick moving scenes stay smooth and clear.

Whether you utilize **G-Sync Compatible** or **FreeSync Technology**, you can enjoy sharp 4K gaming with vibrant HDR and high frame rates of 120fps or more.

## Stylish Design

Our slim TV designs look great in any room, even when the TV is off. The S95H's new metal frame takes OLED style to another level.

With access to Samsung's **Art Store**, the S95H can showcase world-famous artwork, adding a sophisticated touch to your home.
