Chapter 1 Installation

1.1 Installation Components Overview

No.	Figure	Item	Function
1		CarWave NXBK-N Wireless Car Smart Box	Covert wired CarPlay / Android Auto connection to wireless.
2		USB A to USB C Cable: 27 cm / 10.63 inches	Connect the NXBK-N to the car stereo's CarPlay/Android Auto port.
3		USB C to USB C Cable: 27 cm / 10.63 inches	Connect NXBK-N to your car stereo's CarPlay/Android Auto port.
4		USB A to A Y-Cable: 80 cm / 31.50 inches	Connect to solves the problem of low power from some head unit USB ports, keeping the NXBK-N adapter working smoothly.
5		USB A to USB C adapter	For seamless compatibility with various devices.

1.2 Why Do You Need a Y-Cable?

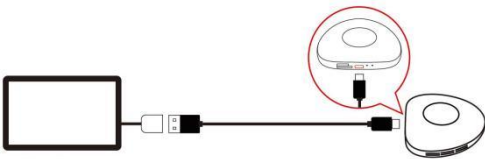

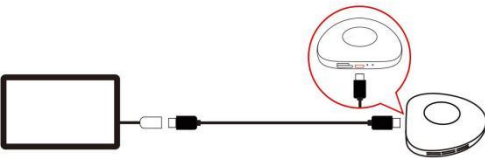

For vehicles, including but not limited to 2016-2020 Nissan, Isuzu, Camry, 2023 Toyota Crown, 2023 Lexus NX or Volkswagen, which may have insufficient power supply to support the NXBK-N adapter's normal operation. This may result in power-on failures or unexpected restarts.

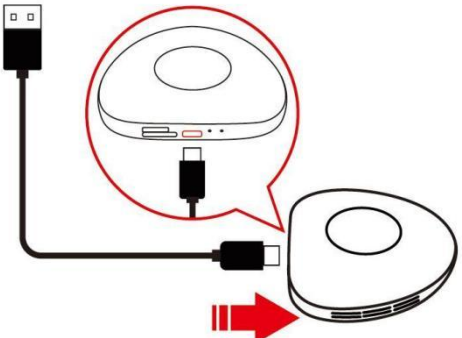

To address this issue, we include a **USB A to Type A Y-Shaped Cable** in the package. This cable connects to the vehicle's cigarette lighter socket to provide sufficient power, ensuring the NXBK-N adapter operates reliably.

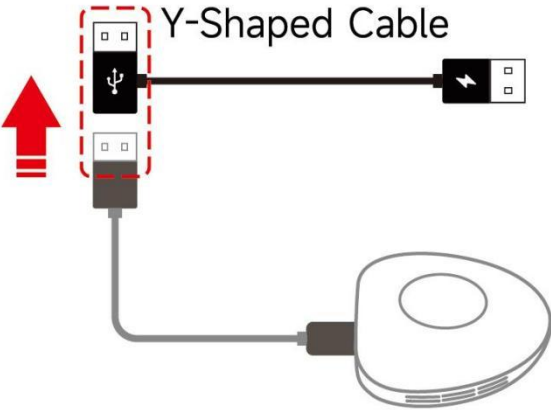

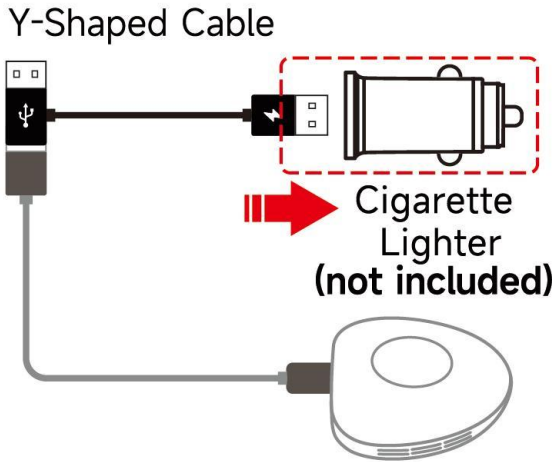

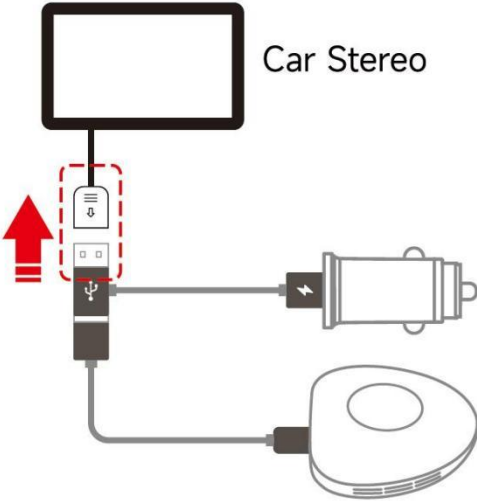

Key Benefits of the Y-Cable:

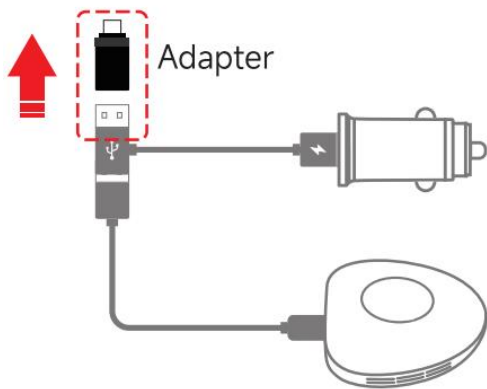

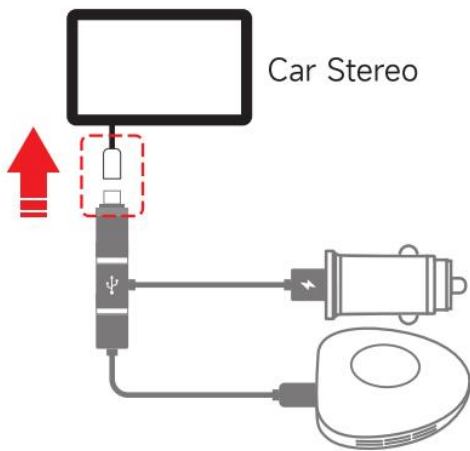

- **Improved Power Supply:** The **USB A to Type A Y-Shaped Cable** provides sufficient power from the cigarette lighter socket, ensuring the NXBK-N adapter functions properly.
- **Enhanced Stability:** It stabilizes the connection and ensures smooth operation, preventing interruptions caused by insufficient power supply.

1.3 Connection Process

No.	Operation	Figure
Method 1: Standard Connection		
(For vehicles, including but not limited to 2016-2020 Nissan, Isuzu, Camry, 2023 Toyota Crown, 2023 Lexus NX or Volkswagen, which may have insufficient power supply or experience unexpected restarts, use the Y-shaped cable as described in Method 2.)		
Use one of the provided USB cables (USB A to USB C or USB C to USB C) to connect the NXBK-N and to the car stereo.		
		
Method 2: Enhanced Power from Cigarette Lighter via Y-Cable (For car stereos with a USB A port)		

1	Plug the Type C end of USB A to USB C Cable into the NXBK-N.	
---	--	--

2	Plug the USB Male end of the USB A to USB C Cable into the Y-Shaped Cable.	 Y-Shaped Cable
3	Plug the USB Male end (with the attached cable) of the Y-Shaped Cable into the cigarette lighter port.	 Y-Shaped Cable Cigarette Lighter (not included)
4	Plug the USB Male end (with the USB Female) of the Y-Shaped Cable into the USB Female port of your car stereo.	 Car Stereo
Method 3: Enhanced Power from Cigarette Lighter via Y-Cable (For car stereos with a USB C port)		

1	Follow steps 1-3 from Method 2.	
2	Plug the USB Male end (with the USB Female) of the Y-Shaped Cable into the Adapter .	
3	Plug the USB C end of the Adapter into the car stereo's USB C port.	
Note: The cigarette lighter is not included in the NXBK-N product package.		

Chapter 2 Important Notice

Correct SIM Card Insertion Required

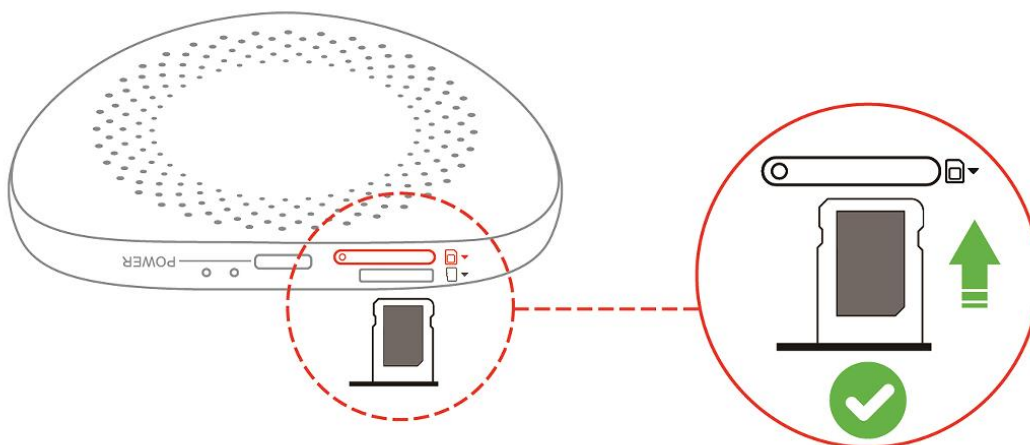

Incorrect insertion will damage the device and prevent it from functioning properly.

Tip: Inert the SIM card correctly on the first attempt.

Refer to the diagram below for the correct orientation of the SIM card.

 WARNING:

Incorrect insertion will permanently damage the device and immediately void the warranty. If you are unsure, please contact our support team before proceeding.
