Wiring Options:

Shown below are wiring options to connect the RED12SUB 8+8 Ω DVC Subwoofer with up to six (6) RED6SAT 16 Ω speakers. You can safely connect three (3) pairs of the RED6SAT, along with a RED12SUB to any 2-Channel AVR or Audio Amplifier. Recommended power rating of the amplifier should be 100W x 2. The 12" woofer does not perform well with a low power amplifier.

The subwoofer can be installed vertically or horizontally.

HORIZONTAL

VERTICAL

The positive and negative wires for the right channel are noted by red for Positive (+) and black for Negative (-) and the left channel are noted by blue for Positive (+) and green for Negative (-).

Your Audio Source and Satellite Speakers use red for Positive & black for Negative

Prior to digging, we recommend that you call 811 or 888-344-7233 in the United States. A person will come out and mark all the underground cables & gas line if applicable.
